

MERCY SPEAKS DIGITAL

Revora AI Front Desk Team

Sales Outreach Kit

Scripts, offers, objections, demo flow, and follow-up language for selling AI employee systems to local businesses.

A 24/7 AI employee team for lead capture, qualification, booking support, missed revenue tracking, and marketing content.

BEST STARTING NICHE

Dental offices

PRIMARY CTA

10-minute demo

OFFER MODEL

Setup + monthly support

Quick Start: How to Use This Kit

Use this guide to contact prospects, book short demos, present the offer, and follow up professionally.

Core offer
A 24/7 AI employee team that captures leads, qualifies customers, prepares booking and follow-up, flags missed revenue, and helps create marketing content.

- Pick one niche for outreach this week. Start with dental offices unless you already have a warmer niche.
- Use one simple message: missed calls, slow follow-up, and unbooked leads cost money.
- Invite prospects to a 10-minute demo using their business as the example.
- After interest, send the one-page offer sheet and client setup form.
- Do not promise full automation. Explain that sensitive actions can require human approval.

Target Niches

Start narrow. Use one main niche until you have proof, then expand.

Niche	Pain points	Why it fits
Dental offices	Missed calls, emergency requests, new patient leads, no-shows	Best first niche
Med spas	Consultation leads, service questions, follow-up, offers	Strong revenue per lead
Hair salons / braiding	Booking inquiries, style questions, price ranges, social content	Great for local demos
Home service contractors	Urgent jobs, after-hours calls, quote requests	High missed-call pain
Churches	Visitor follow-up, event questions, prayer requests, admin help	Use faith-friendly positioning
Law firms	Intake, appointment requests, lead qualification	High value; use conservative language

Offer Positioning

Sell a business outcome, not a chatbot.

Weak positioning	Stronger positioning
“We build chatbots.”	“We help stop lost leads from missed calls and slow follow-up.”

“AI can automate your business.”

“AI can prepare lead capture, follow-up, booking support, and owner alerts with human approval.”

“This replaces staff.”

“This supports your front desk and gives your team faster response coverage.”

“Guaranteed more revenue.”

“The system helps identify and recover missed opportunities.”

Short Cold Email Script

Use this for dental offices, med spas, salons, home services, and other local businesses.

Cold Email - Version 1

Subject: Quick idea for capturing missed leads

Hi [Name],

I help local businesses stop losing leads from missed calls, slow follow-up, and unbooked appointments.

I built a 24/7 AI Front Desk Team that can capture leads, qualify customers, prepare booking/follow-up, flag missed revenue, and help with marketing content.

Would you like a quick 10-minute demo using [Business Name] as the example?

Best,
Donatus
Mercy Speaks Digital

Personalize the first line with one observation from their website, Google Business Profile, or booking flow.

Cold Email - Version 2

Subject: Are missed calls costing [Business Name] leads?

Hi [Name],

I noticed many local businesses lose opportunities when calls come in after hours or follow-up takes too long.

Revora AI Front Desk Team helps capture those leads, qualify them, draft follow-up, and alert the owner before the opportunity goes cold.

Would you be open to a 10-minute walkthrough? I can show it using your business as the example.

Facebook / Instagram DM Scripts

Keep DMs short. The goal is a reply, not a full sale.

DM - Friendly local business version

Hi [Name], quick question - do you ever miss calls or appointment requests when things get busy?

I built an AI Front Desk Team that helps local businesses capture leads, prepare follow-up, and flag missed revenue.

Would you like me to show you a quick 10-minute demo using your business as the example?

DM - Salon / med spa version

Hi [Name], your services look great. I help businesses like yours respond faster to booking questions and missed inquiries using an AI front desk assistant.

It can capture the lead, prepare follow-up, and help keep content ideas flowing.

Open to a quick demo?

Google Maps Outreach Script

Use this when contacting businesses found through Google Maps.

Google Maps message

Hi [Business Name] team,

I found your business on Google Maps and wanted to share a quick idea. Many local businesses miss revenue when calls, messages, or booking requests are not answered quickly.

I built Revora AI Front Desk Team, a 24/7 AI employee system that captures leads, qualifies them, prepares booking/follow-up, and alerts the owner.

Would you like a short demo using your business as the example?

Outreach tip

Before sending, note one real observation: no online booking link, slow website, missing FAQ, limited hours, or high-value service. Keep it respectful and specific.

30-Second Phone Pitch

Use this when a business owner answers the phone.

Phone pitch Hi, this is Donatus with Mercy Speaks Digital. I will be brief. I help local businesses stop losing leads from missed calls, slow follow-up, and unbooked appointments. I built a 24/7 AI Front Desk Team that can capture leads, qualify customers, prepare booking and follow-up, flag missed revenue, and even help with marketing content. I am not calling to sell you blindly. I wanted to offer a quick 10-minute demo using your business as the example. Would this week or next week be better?	
If they say...	Say this
“Send me information.”	Absolutely. I will send a one-page summary. What is the best email?
“We already have staff.”	That is good. This does not replace staff; it supports them after hours and during busy times.
“We are busy.”	I understand. That is exactly why missed leads happen. The demo is only 10 minutes.
“How much?”	Starter packages begin with setup plus monthly support. I can recommend the right level after a short demo.

Demo Walkthrough Talking Points

Use this order for a clean 10-minute presentation.

Step	Page	What to say
1	/ai-employee-system	Explain the product and business problem.
2	/demo	Show the demo hub and explain this is a controlled preview.
3	/demo/command-center	Show the complete AI employee workflow.
4	/demo/ai-employees	Explain each AI employee role.
5	/demo/lead-ops	Show lead capture, qualification, and next actions.

6	/demo/missed-revenue	Show how missed opportunities can be estimated and recovered.
7	/demo/approvals	Explain human approval before sensitive actions.
8	/demo/marketing-social	Show marketing content support and social post drafts.

Objection Responses

Keep answers calm, honest, and business-focused.

Objection	Response
We already have a receptionist.	Perfect. This supports your receptionist by capturing after-hours leads, drafting follow-up, and keeping important requests from slipping through.
We do not need AI.	That may be true for some parts of your business. The question is whether missed calls, slow follow-up, or unbooked leads are costing you money.
How much does it cost?	There is a setup fee and monthly support. Starter is for lead capture and follow-up drafts; higher packages include booking, missed revenue, and marketing support.
Is this safe?	Yes. Sensitive actions like email, SMS, booking confirmation, pricing, and social posting can require human approval.
Can it actually book appointments?	It can prepare booking intent, collect details, and route customers to a booking link. Live booking integration is configured during production setup.
Will it replace my staff?	No. The best use is to support your team, reduce missed opportunities, and give the owner better visibility.

Pricing Guidance

Use ranges until you understand the client’s needs.

Package	Suggested pricing	Best for
Starter	\$497 setup + \$197/mo	AI lead capture, qualification, follow-up drafts, basic owner alerts
Pro	\$997 setup + \$397/mo	AI receptionist workflow, booking intent, handoff, missed revenue demo

		dashboard
Premium	\$1,500-\$2,500 setup + \$597-\$997/mo	Full AI employee team, marketing/social assistant, approval workflow, premium support

Pricing note

For the first 1-2 pilot clients, you may offer a founder/pilot rate in exchange for feedback, case study permission, and a strong testimonial after results are proven.

Five-Day Outreach Plan

Simple daily execution plan to create momentum.

Day	Action	Target
Day 1	Build a list of 30 businesses in one niche.	Dental offices first
Day 2	Send 10 emails + 10 DMs.	Track replies
Day 3	Call 10 businesses and offer a short demo.	Book 1-2 demos
Day 4	Follow up with non-responders and send the one-page offer sheet.	Keep it short
Day 5	Run demo, ask discovery questions, send setup form if interested.	Move to proposal

Follow-Up Templates

Most deals happen after follow-up. Keep it polite and useful.

Follow-up after no response

Hi [Name], just following up on my note about helping [Business Name] capture missed leads and improve follow-up with an AI Front Desk Team.

Would a quick 10-minute demo be useful, or should I close the loop?

After demo follow-up

Hi [Name], thank you for taking a few minutes to review the Revora AI Front Desk Team demo.

Based on what we discussed, the biggest opportunity appears to be [missed calls / booking follow-up / marketing consistency].

The next step would be completing the short client setup form so I can customize the workflow for your business.

Proposal follow-up

Hi [Name], checking in on the AI Front Desk Team proposal.

I believe the best starting point is [Starter/Pro/Premium] because it focuses on [specific pain point].

Would you like to move forward with setup this week?

Discovery Questions

Ask these during or after the demo to qualify the opportunity.

- How many calls or inquiries do you estimate you miss each week?
- What happens today when someone contacts you after hours?
- How quickly does your team follow up with new leads?
- What is an average new customer worth to your business?
- Do you already use a booking link or calendar system?
- Who should approve follow-up messages or booking confirmations?
- What customer questions repeat the most?
- Which platform matters most for your marketing: Facebook, Instagram, TikTok, YouTube, LinkedIn, or email?

Lead Tracking Sheet

Use this simple tracker until you have a CRM workflow.

#	Business	Contact	Channel	Status	Next step	Notes
1						
2						
3						
4						
5						
6						
7						
8						

Closing Script

End with a clear next step.

Close

Would you like me to customize this AI employee system for your business?

The next step is simple: complete the Client Setup Form, then I will configure a pilot version around your business hours, services, booking process, follow-up rules, and approval preferences.

Do not overpromise

Use honest language: working demo, pilot-ready, production setup after onboarding. Do not say it is fully live for client operations until the production database workflow and integrations are finished.

Final Sales Checklist

Use this before every outreach session.

- ☐ Choose one niche for the day.
- ☐ Prepare a list of at least 10 businesses.
- ☐ Open the one-page offer sheet and demo hub.
- ☐ Use the 10-minute demo script.
- ☐ Ask one clear question: “Would you like a 10-minute demo using your business as the example?”
- ☐ Track every contact and follow-up date.
- ☐ Send the Client Setup Form only after interest is confirmed.
